

Deluxe Cruises in **CROATIA**

Our ExpairTours Cruises

Discover the most beautiful places wondrous spots of the Croatian coast **on board of our charming boats.**

The best way to discover most of what the Adriatic coast has to offer is to travel from island to island, every stopover having its own highlight; small isolated ports, spotless creeks, finding yourselves in the heart of Croatian towns (where the anchor will be dropped for the night) most of which are classified in the UNESCO world heritage and moreover, drop the anchor for the night.

Our boats offer personalised service with a welcoming crew, always open to your every needs. Well-equipped and comfortable cabins, excellent food in a cosy atmosphere. The size of our boats allows each passenger to have some intimacy while it also creates a cosy and family-like environment.

The intimacy is amplified. The homely atmosphere is amplified by the crew. In fact, the captain and the crew members all come from sailor families who respect, know and love the sea. They will do everything to share their love for the country and its sea with you. The boats are separated into 3 groups: Deluxe, Luxury and Superior. The fleet is made up of recently built boats to guarantee an unforgettable journey across the Adriatic Islands.

CRUISES : LIFE ON BOARD

Range of boats

Although all boats are built recently, they are divided into 3 groups: Deluxe, Luxury and Superior. Based on the level of comfort, amenities and extras such as drinks and service.

Cabin types

The cabins are usually divided into decks: inferior deck, main deck and/or superior deck. Inferior deck; its cabins are slightly cheaper with two portholes and air conditioning. Most of the inferior deck cabins are also the largest, the coolest and calmest. They are accessed by a staircase from the main deck. Main deck cabins are usually equipped with a window and a porthole in the bathroom, their access is easy (and they have a beautiful view). All cabins have double beds or twin beds, a private bathroom with a shower and toilet. Some cabins have an extra bed. Wi-Fi is available in the shared areas of the boat.

On a daily basis

The boats usually leave the port in the morning during breakfast. Depending on the weather forecast the first swim stop usually takes place before lunch and the second, in the afternoon, before arriving at destination. When arriving, passengers may take part in the town tour given by a local tour guide. Evenings are activity free and allow everyone to taste some local restaurant and food. The boats are usually anchored in ports very close to the city.

Meals on board

The cruise is a half-board formula: Breakfast served as a buffet and lunch is freshly cooked and served in a 3 dish menu. The food on board is a mix of international as well as Mediterranean and Croatian food. Our chef will do his best to respect each and everyone's diets, if it was mentioned in the booking. We encourage our clients to stroll through the city at night and taste the local food. The cruise directors are always open to questions and can suggest you good restaurants.

Drinks

Drinks (1/4 wine, 1/2 water and coffee) are included in the meals on most of our ships. A bar is available and serves beer, wine, spirits and soft drinks. All drinks bought on board can be paid cash at the end of the stay. Drinks bought on mainland are not allowed on the ships.

Excursions

Croatia is a beautiful country with lovely cities classified in the UNESCO heritage list, unique islands each with their own personality and history. Although a city tour with a local guide is included in the price, some optional activities don't have free entry, giving clients the opportunity to discover some places at their own pace. We suggest you check the included/non included section of each cruise.

Dress code

The dress code during the entire journey is relaxed and comfortable. Make sure you pack a jumper (meh) for October and May, which may sometimes be a little cooler. As for the Summer, we suggest you take sun cream and sunglasses. We highly recommend a pair of hiking shoes to explore islands towns and National Parks.

Nationalities on board

The boats have a capacity of 36 up to 40 people. Most from Belgium but also from the UK, Australia, Canada etc... Families, couples, children and seniors are welcome. The Young and Fun cruises offer more nightlife to our younger clients.

Languages on board

Generally speaking, English is used on board but some cruise directors speak Dutch and French as well. For more information on the language spoken on your cruise, feel free to contact us.

Limited mobility

All sorts of clients are welcome on board but a warning to the ones with limited mobility. The crew will do their best to help you get on board, but it is important to know that most of the boats berth one next to another, clients sometimes have to pass several boats to get to theirs, and platforms are put in place between each boat. We encourage you to contact our team while booking.

Private Boats

A boat can be privatized from a group of 30 people on. Several themed cruises can be offered; one way cruises, gay, bike, cultural ... Don't hesitate to send us your request our team will be happy answer in the shortest delay.
